**Subject:** Re: Biogas Utilization for Pipeline Injection and EPA Risk Management Plan

Eileen,

Alexis spoke to your GM yesterday. We are working on getting you a response. This is not a typical inquiry so there is a little thinking outside the box with this. But I promise you a response soon. Have a nice weekend.

Best regards,

Michael Stoker

EPA Regional Administrator-Region 9

Cell Ex. 6 Personal Privacy (PP)

Hi Michael,

I have prepared the attached letter to request your help to determine whether and how the existing EPA exclusion language could either be amended or interpreted to allow beneficial projects to move forward and increase the diversion of food scraps and production of renewable fuel.

Please contact me if you want additional information. Thanks!

Eileen
